FRENCH BRAND
PRODUCTION IN LYON

WHY EO VOLT ?

“Bringing new life into the daily lives of city dwellers by optimising their journeys and making them more pleasant by bicycle.”

This is the mission statement which is the heartbeat of Eovolt.

The world is changing, people want to change the way they travel and cities are redesigning their infrastructure.

EOVOLT quickly adapted and established itself as the brand offering the ideal means of transport in the face of these changes with its range of folding, lightweight, powerful electric bikes with a unique design.

Discreet electric bicycles which when folded are easy to transport, to store in an apartment, at a workplace, in a motorhome, in a car boot or take on public transport.

Lightweight electric bikes with a sleek design thanks to their battery (located in the) seat post allowing aesthetics and practicality to combine.

A FRENCH BRAND

EOVOLT is a French brand whose new production site is based in Genas in the Lyonnaise region.

EOVOLT bikes are fully assembled by their team of professionals and cycling enthusiasts.

They attach great importance to the quality of the assembly while meticulously choosing the different components they use and the partners with whom they work in order to offer products of the highest quality that are built to last.

Spare parts are held in the UK for immediate dispatch.

PRODAYS **PARIS** BIKE SHOW LAUNCH

EOVOLT officially launched the new 2021 range at the Prodays Paris Bike Show in September 2020

RIDE WITHOUT EFFORTS !

Thanks to their 250W Brushless motor with 5 levels of assisted power, EOVOLT bikes allow you to travel up to 25km per hour without effort whatever the gradient, terrain or weather.

REMOVABLE BATTERY SYSTEM

EOVOLT bikes comes equipped with a SAMSUNG battery integrated into the seat post, which combines aesthetics with practicality.

FOLD IN 10 SECONDS

ON-BOARD COMPUTER WITH USB PORT

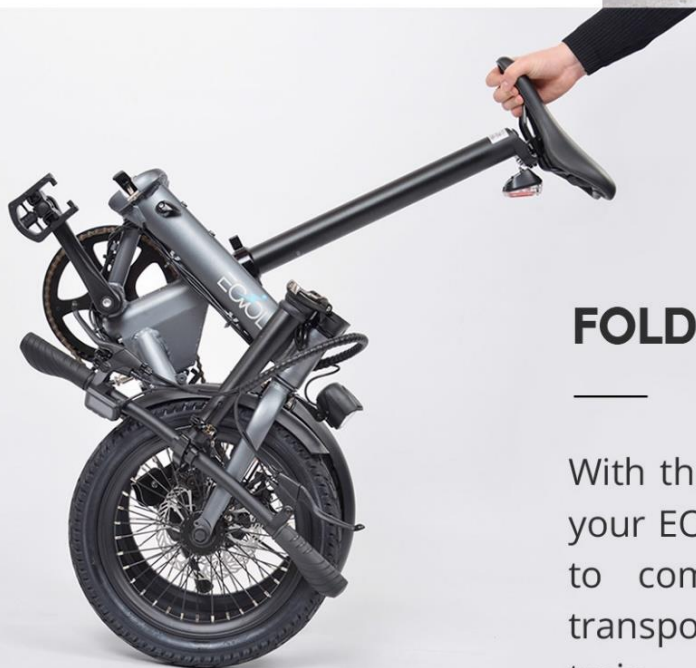

The on-board computer with LCD screen allows you to have access to different information.

A USB port is also integrated allowing you to charge your phone or other electronic device.

LIGHTWEIGHT BIKES

Minimal weight for maximum portability!

Thanks to their 6061-aluminum alloy frame, Eovolt bikes combine lightness and rigidity.

FOLD & GO SYSTEM

With the Fold & Go system, you can carry your EOVLTO bike anywhere, allowing you to combine it with other means of transport such as the subway, bus, tram or train.
